<b>Comments</b>	Sugar is the main cause of weight gain and fat production in the body	Artificial sweeteners are shown to have side effects, and increase insulin resistance	By using organic ingredients we guarantee the absence of any harmful substances from the product, and the maximum quantity of nutrients.	Cocoa Butter is great for weight loss and healthy skin. It also greatly improves the flavor of chocolate	Cocoa Powder is chemically processed food that is the "waste product" of the chocolate manufacturing process	The herbal blend in TRU Chocolate is responsible for its health promoting qualities	Xylitol is proven to promote healthy teeth and retard Candida, cold and flu, and other bacteria and virus			Artificial nutrients have a very poor absorption ratio and could imbalance the body
